Composite Score Signature
visual system development
synaptic cleft
site of polarized growth
sensory system development
sensory organ development
sarcolemma
regulation of trans−synaptic signaling
regulation of system process
regulation of plasma membrane bounded cell projection organization
regulation of neuron projection development
postsynaptic specialization
postsynaptic membrane
postsynaptic density
plasma membrane bounded cell projection morphogenesis
neuronal cell body
neuron projection morphogenesis
muscle system process
modulation of chemical synaptic transmission
maintenance of blood−brain barrier
learning or memory
laminin binding
growth cone
Glutamatergic synapse
eye development
extracellular matrix binding
excitatory synapse
distal axon
developmental growth involved in morphogenesis
developmental cell growth
collagen−containing extracellular matrix
cognition
Cholinergic synapse
cell projection morphogenesis
cell body
camera−type eye development
basement membrane
axon
asymmetric synapse
adenylate cyclase−modulating G protein−coupled receptor signaling pathway
adenylate cyclase−activating G protein−coupled receptor signaling pathway

Robust Rank Aggregation
visual system development
structural molecule activity conferring elasticity
site of polarized growth
sensory system development
secretory granule localization
sarcolemma
protein localization to extracellular region
neuronal dense core vesicle membrane
neuronal cell body
neuron projection morphogenesis
negative regulation of cell motility
negative regulation of cell migration
muscle system process
muscle contraction
limbic system development
intercalated disc
heterotypic cell−cell adhesion
heart process
heart contraction
growth cone
gland morphogenesis
gland development
GABAergic synapse
eye development
extracellular matrix structural constituent
excitatory synapse
distal axon
desmosome
dense core granule membrane
dense core granule localization
collagen−containing extracellular matrix
cell−cell junction
cell−cell contact zone
cell projection morphogenesis
cell body
cell adhesion mediator activity
camera−type eye development
