synaptic cleft
synapse assembly
site of polarized growth
Serotonergic synapse
sarcolemma
Retrograde endocannabinoid signaling
retina development in camera−type eye
response to nutrient
regulation of adenylate cyclase activity
postsynaptic specialization membrane
postsynaptic membrane
perikaryon
neurotransmitter receptor activity involved in regulation of postsynaptic membrane potential
neuronal dense core vesicle membrane
neuronal cell body
neuron projection guidance
Morphine addiction
laminin binding
innervation
heterotrimeric G−protein complex
growth cone
Glutamatergic synapse
GABAergic synapse
GABA−ergic synapse
extrinsic component of membrane
extracellular matrix structural constituent
extracellular matrix binding
excitatory synapse
distal axon
dense core granule membrane
dendrite morphogenesis
Circadian entrainment
Cholinergic synapse
central nervous system neuron differentiation
Cell lineage map for neuronal differentiation
cell body
cardiac muscle cell action potential involved in contraction
axon guidance
apolipoprotein binding
adenylate cyclase−activating G protein−coupled receptor signaling pathway

RRA
ureteric bud development
structural molecule activity conferring elasticity
stem cell development
Splicing factor NOVA regulated synaptic proteins
secretory granule localization
salivary gland morphogenesis
salivary gland development
protein complex involved in cell−matrix adhesion
odontogenesis
neuronal dense core vesicle membrane
neural crest cell migration
neural crest cell development
nerve development
metanephros development
mesonephric tubule development
mesonephric epithelium development
mesenchymal cell migration
maintenance of blood−brain barrier
limbic system development
laminin complex
laminin binding
intercalated disc
heterotypic cell−cell adhesion
gland morphogenesis
extracellular matrix constituent conferring elasticity
extracellular matrix binding
exocrine system development
excitatory synapse
embryonic pattern specification
embryonic eye morphogenesis
Development of ureteric derived collecting system
dense core granule membrane
dense core granule localization
costamere
cell−cell contact zone
cell−cell adhesion mediator activity
cell adhesion mediator activity
branching involved in salivary gland morphogenesis
basement membrane
apolipoprotein binding
alcohol binding

meta_p
zonula adherens
synaptic membrane
Resistin as a regulator of inflammation
regulation of canonical Wnt signaling pathway
Rap1 signaling pathway
presynaptic membrane
presynaptic active zone
postsynaptic specialization
postsynaptic density
positive regulation of locomotion
positive regulation of cell motility
positive regulation of cell migration
Pleural mesothelioma
Platelet activation
plasma membrane bounded cell projection morphogenesis
Phospholipase D signaling pathway
neuronal cell body
neuron to neuron synapse
neuron projection morphogenesis
neuron projection guidance
Neural crest differentiation
Hippo signaling regulation
GnRH secretion
Gap junction
dendrite
Circadian entrainment
Choline metabolism in cancer
cell projection morphogenesis
cell morphogenesis involved in neuron differentiation
cell body
canonical Wnt signaling pathway
blood vessel development
axonogenesis
axon hillock
axon guidance
axon development
axon
asymmetric synapse
angiogenesis
ADHD and autism ASD pathways

majority
voltage−gated sodium channel complex
voltage−gated sodium channel activity
ventricular compact myocardium morphogenesis
transmembrane receptor protein serine/threonine kinase binding
synaptic cleft
semicircular canal development
salivary gland morphogenesis
salivary gland development
replacement ossification
regulation of prostatic bud formation
regulation of odontogenesis of dentin−containing tooth
regulation of odontogenesis
regulation of mesenchymal cell apoptotic process
regulation of animal organ formation
receptor serine/threonine kinase binding
prostatic bud formation
prostate gland morphogenesis
prostate gland epithelium morphogenesis
pituitary gland development
pharyngeal system development
outflow tract septum morphogenesis
Nicotine effect on dopaminergic neurons
Nephrogenesis
morphogenesis of an epithelial fold
morphogenesis of an epithelial bud
mesenchymal cell apoptotic process
male genitalia development
lateral sprouting from an epithelium
laminin binding
L−glutamate transmembrane transporter activity
innervation
glomerular basement membrane development
G protein−coupled receptor complex
endochondral ossification
cell proliferation involved in kidney development
cardiac neural crest cell differentiation involved in heart development
cardiac neural crest cell development involved in outflow tract morphogenesis
cardiac neural crest cell development involved in heart development
branching involved in salivary gland morphogenesis
BMP signaling in eyelid development
axonemal B tubule inner sheath
apicolateral plasma membrane
