Vitamin A and carotenoid metabolism
transporter complex
transport vesicle membrane
transmitter−gated monoatomic ion channel activity involved in regulation of postsynaptic membrane potential
synaptic vesicle membrane
synaptic transmission involved in micturition
synaptic membrane
signal release
Serotonergic synapse
sensory organ development
Retrograde endocannabinoid signaling
regulation of secretion
protein localization to cell−cell junction
presynapse
postsynaptic specialization
postsynaptic neurotransmitter receptor activity
postsynaptic membrane
Nicotine effect on dopaminergic neurons
Nicotine addiction
neurotransmitter receptor activity involved in regulation of postsynaptic membrane potential
neurotransmitter receptor activity
monoatomic ion channel complex
micturition
L−type voltage−gated calcium channel complex
Glutamatergic synapse
glutamatergic synapse
GABAergic synapse
extracellular matrix
external encapsulating structure
exocytic vesicle membrane
excretion
Cholinergic synapse
behavioral response to nicotine
axon

majority
T−tubule
synaptobrevin 2−SNAP−25−syntaxin−3−complexin complex
Synaptic vesicle pathway
Synaptic vesicle cycle
synaptic vesicle cycle
synaptic transmission involved in micturition
signal release from synapse
Serotonergic synapse
secretory granule localization
sarcolemma
Retrograde endocannabinoid signaling
regulation of secretion
presynaptic membrane
postsynaptic specialization membrane
postsynaptic membrane
positive regulation of secretion by cell
positive regulation of secretion
peptide transport
peptide secretion
peptide hormone secretion
Nicotine effect on dopaminergic neurons
Nicotine addiction
neurotransmitter transport
neurotransmitter secretion
neurotransmitter receptor activity involved in regulation of postsynaptic membrane potential
myofibril
locomotory behavior
inner ear development
Glutamatergic synapse
GABAergic synapse
GABA−ergic synapse
excretion
excitatory synapse
ear development
dense core granule localization
dense core granule exocytosis
cartilage development
calcium−ion regulated exocytosis
amide transport
actomyosin structure organization
