CompositeScore
zonula adherens
Wnt−protein binding
Wnt signaling pathway, planar cell polarity pathway
Wnt receptor activity
TGF−beta signaling pathway
sequestering of TGFbeta in extracellular matrix
sensory organ morphogenesis
Schaffer collateral − CA1 synapse
regulation of protein localization to synapse
regulation of neurotransmitter receptor localization to postsynaptic specialization membrane
regulation of heart rate by chemical signal
protein localization to synapse
protein localization to postsynaptic specialization membrane
protein localization to postsynaptic membrane
protein localization to postsynapse
protein localization to cell junction
presynaptic membrane
presynaptic active zone
non−canonical Wnt signaling pathway
neurotransmitter receptor localization to postsynaptic specialization membrane
microfibril
limb morphogenesis
Hypothesized pathways in pathogenesis of cardiovascular disease
Hippo signaling pathway
Glutamatergic synapse
GABAergic synapse
GABA−ergic synapse
fascia adherens
extracellular matrix structural constituent
extracellular matrix of synaptic cleft
embryonic organ morphogenesis
embryonic limb morphogenesis
embryonic appendage morphogenesis
developmental growth involved in morphogenesis
cellular component maintenance
cell−cell contact zone
cell junction maintenance
Cell adhesion molecules
basement membrane
appendage morphogenesis

RRA
vesicle fusion to plasma membrane
transmembrane receptor protein tyrosine kinase activity
synaptic vesicle fusion to presynaptic active zone membrane
structural molecule activity conferring elasticity
Striated muscle contraction pathway
salivary gland morphogenesis
salivary gland development
regulation of vesicle fusion
regulation of synaptic vesicle membrane organization
regulation of synaptic vesicle fusion to presynaptic active zone membrane
regulation of basement membrane organization
protein complex involved in cell−matrix adhesion
protein complex involved in cell adhesion
protein binding involved in heterotypic cell−cell adhesion
positive regulation of integrin−mediated signaling pathway
neuron projection membrane
negative regulation of smooth muscle cell migration
maintenance of blood−brain barrier
laminin−10 complex
laminin−1 complex
laminin complex
intercalated disc
Inflammatory response pathway
heterotypic cell−cell adhesion
fascia adherens
extracellular matrix of synaptic cleft
extracellular matrix constituent conferring elasticity
exocrine system development
excitatory synapse
desmosome
costamere
cellular response to mechanical stimulus
cell−cell contact zone
cell−cell adhesion mediator activity
cell junction maintenance
cell communication involved in cardiac conduction
cell adhesion mediator activity
branching involved in salivary gland morphogenesis
basement membrane
apolipoprotein binding

meta_p
zonula adherens
synaptic membrane
Schaffer collateral − CA1 synapse
regulation of trans−synaptic signaling
protein localization to synapse
protein localization to cell junction
presynaptic membrane
postsynaptic specialization membrane
postsynaptic specialization
postsynaptic membrane
postsynaptic density membrane
postsynaptic density
plasma membrane bounded cell projection morphogenesis
neuronal cell body
neuron to neuron synapse
neuron projection morphogenesis
neuron projection guidance
Myometrial relaxation and contraction pathways
modulation of chemical synaptic transmission
Insulin secretion
Hippo signaling regulation
Hippo signaling pathway
GnRH secretion
Glutamatergic synapse
glutamatergic synapse
Gap junction
distal dendrite
Circadian entrainment
cellular component maintenance
cell projection morphogenesis
cell morphogenesis involved in neuron differentiation
cell junction maintenance
cell body
axonogenesis
axon hillock
Axon guidance
axon guidance
axon development
asymmetric synapse

majority
voltage−gated potassium channel activity involved in ventricular cardiac muscle cell action potential repolarization
voltage−gated potassium channel activity involved in cardiac muscle cell action potential repolarization
ventricular cardiac muscle tissue morphogenesis
ventricular cardiac muscle cell action potential
transmembrane receptor protein tyrosine kinase activator activity
synaptic cleft
structural molecule activity conferring elasticity
steroid hormone binding
regulation of protein kinase C signaling
regulation of protein kinase A signaling
regulation of odontogenesis of dentin−containing tooth
regulation of odontogenesis
regulation of dopamine secretion
protein kinase C signaling
protein complex involved in cell−matrix adhesion
prostatic bud formation
potassium ion export across plasma membrane
positive regulation of calcium ion−dependent exocytosis
outflow tract septum morphogenesis
neuron projection extension involved in neuron projection guidance
Nephrogenesis
negative regulation of platelet activation
morphogenesis of an epithelial fold
morphogenesis of an epithelial bud
membrane repolarization during ventricular cardiac muscle cell action potential
membrane repolarization during cardiac muscle cell action potential
membrane depolarization during cardiac muscle cell action potential
lateral sprouting from an epithelium
laminin complex
laminin binding
L−glutamate transmembrane transporter activity
innervation
high voltage−gated calcium channel activity
glomerular basement membrane development
Genes controlling nephrogenesis
extracellular matrix constituent conferring elasticity
epithelial cell−cell adhesion
dopamine secretion
Development of ureteric derived collecting system
cell proliferation involved in kidney development
branching involved in salivary gland morphogenesis
BMP signaling in eyelid development
axonemal B tubule inner sheath
axon extension involved in axon guidance
