CompositeScore
synapse assembly
site of polarized growth
Serotonergic synapse
sarcolemma
Retrograde endocannabinoid signaling
retina development in camera−type eye
regulation of adenylate cyclase activity
postsynaptic membrane
perikaryon
neuronal dense core vesicle membrane
neuronal cell body
neuron spine
neuron projection guidance
Morphine addiction
laminin binding
innervation
heterotrimeric G−protein complex
heart contraction
growth cone
Glutamatergic synapse
GABAergic synapse
GABA−ergic synapse
extracellular matrix structural constituent
extracellular matrix binding
excitatory synapse
distal axon
dense core granule membrane
dendritic spine
dendrite morphogenesis
Circadian entrainment
Cholinergic synapse
central nervous system neuron differentiation
cell morphogenesis involved in neuron differentiation
cell body
cardiac muscle cell action potential involved in contraction
camera−type eye development
axon guidance
apolipoprotein binding
adenylate cyclase−modulating G protein−coupled receptor signaling pathway
adenylate cyclase−activating G protein−coupled receptor signaling pathway

RRA
structural molecule activity conferring elasticity
site of polarized growth
secretory granule localization
sarcolemma
regulation of axonogenesis
protein complex involved in cell−matrix adhesion
odontogenesis
neuronal dense core vesicle membrane
neuron projection guidance
maintenance of blood−brain barrier
limbic system development
limb morphogenesis
intercalated disc
growth cone
gland morphogenesis
GABAergic synapse
extracellular matrix structural constituent
extracellular matrix constituent conferring elasticity
excitatory synapse
endothelial cell differentiation
developmental growth involved in morphogenesis
dense core granule membrane
dense core granule localization
costamere
cell−substrate junction organization
cell−cell contact zone
cell−cell adhesion mediator activity
cell communication involved in cardiac conduction
cell adhesion mediator activity
cardiac muscle cell contraction
cardiac muscle cell action potential involved in contraction
cardiac muscle cell action potential
basement membrane
axon guidance
appendage morphogenesis
apolipoprotein binding
adherens junction
actomyosin structure organization
actin−mediated cell contraction
actin filament−based movement

majority
voltage−gated sodium channel complex
voltage−gated sodium channel activity
ventricular compact myocardium morphogenesis
transmembrane receptor protein serine/threonine kinase binding
synaptic cleft
semicircular canal development
salivary gland morphogenesis
salivary gland development
replacement ossification
regulation of prostatic bud formation
regulation of odontogenesis of dentin−containing tooth
regulation of odontogenesis
regulation of mesenchymal cell apoptotic process
regulation of animal organ formation
receptor serine/threonine kinase binding
prostatic bud formation
prostate gland morphogenesis
prostate gland epithelium morphogenesis
pituitary gland development
pharyngeal system development
outflow tract septum morphogenesis
Nicotine effect on dopaminergic neurons
Nephrogenesis
morphogenesis of an epithelial fold
morphogenesis of an epithelial bud
mesenchymal cell apoptotic process
male genitalia development
lateral sprouting from an epithelium
laminin binding
L−glutamate transmembrane transporter activity
innervation
glomerular basement membrane development
G protein−coupled receptor complex
endochondral ossification
cell proliferation involved in kidney development
cardiac neural crest cell differentiation involved in heart development
cardiac neural crest cell development involved in outflow tract morphogenesis
cardiac neural crest cell development involved in heart development
branching involved in salivary gland morphogenesis
BMP signaling in eyelid development
axonemal B tubule inner sheath
apicolateral plasma membrane
