CompositeScore
transmembrane receptor protein tyrosine kinase activity
transmembrane receptor protein kinase activity
synaptic membrane
site of polarized growth
signal release from synapse
secretory granule localization
Retrograde endocannabinoid signaling
retina development in camera−type eye
response to vitamin
response to nutrient
regulation of trans−synaptic signaling
regulation of synaptic plasticity
presynaptic membrane
postsynaptic modulation of chemical synaptic transmission
postsynaptic membrane
neurotransmitter transport
neurotransmitter secretion
neuron projection terminus
Morphine addiction
modulation of chemical synaptic transmission
limbic system development
growth cone
Glutamatergic synapse
glial cell projection
GABAergic synapse
forebrain neuron differentiation
forebrain generation of neurons
eye development
extrinsic component of plasma membrane
extrinsic component of membrane
excitatory synapse
distal axon
dense core granule localization
dense core granule exocytosis
Cholinergic synapse

RRA
telencephalon development
telencephalon cell migration
striated muscle thin filament
Striated muscle contraction pathway
stress fiber
site of polarized growth
response to oleic acid
regulation of neuron differentiation
regulation of microtubule cytoskeleton organization
protein depolymerization
pallium development
olfactory lobe development
neuron projection guidance
neural precursor cell proliferation
negative regulation of neurogenesis
negative regulation of nervous system development
myofilament
muscle thin filament tropomyosin
limbic system development
laminin complex
hippocampus development
growth cone
Glutamatergic synapse
glial cell migration
gland morphogenesis
GABAergic synapse
forebrain generation of neurons
forebrain cell migration
extrinsic component of plasma membrane
contractile actin filament bundle
cerebral cortex radially oriented cell migration
cerebral cortex development
cerebral cortex cell migration
Cardiac muscle contraction
beta−catenin binding
basement membrane
axon guidance
Alanine, aspartate and glutamate metabolism
actomyosin

majority
transmembrane receptor protein tyrosine kinase activity
transmembrane receptor protein kinase activity
synaptic transmission, GABAergic
synaptic transmission involved in micturition
secretory granule localization
response to dopamine
replacement ossification
regulation of morphogenesis of a branching structure
regulation of dense core granule exocytosis
regulation of animal organ morphogenesis
postsynaptic intermediate filament cytoskeleton
Pluripotent stem cell differentiation pathway
pituitary gland development
phospholipase C activity
phosphatidylinositol−4,5−bisphosphate phospholipase C activity
Nicotine effect on dopaminergic neurons
Nicotine addiction
neuron projection membrane
negative regulation of mesenchymal cell apoptotic process
lymph vessel development
innervation
gamma−aminobutyric acid signaling pathway
GABAergic synapse
G protein−coupled dopamine receptor signaling pathway
frizzled binding
forebrain neuron differentiation
forebrain generation of neurons
exocrine system development
excretion
excitatory synapse
endochondral ossification
diencephalon development
dense core granule localization
dense core granule exocytosis
cochlea development
cellular response to monoamine stimulus
cellular response to dopamine
cellular response to catecholamine stimulus
cardiac chamber morphogenesis
branching involved in ureteric bud morphogenesis
apicolateral plasma membrane
